

Specialist Accountants for Pharmacies

START-UP | GROWTH | SUCCESSION

'We use our extensive experience of the pharmacy sector and tax planning to help our clients develop a clear strategy for growth and to achieve their business goals.'

Riz Akhtar, Partner

'We work with pharmacy professionals across the UK helping them every step of the way - from acquiring your first pharmacy, to growing your business all the way to planning your succession.'

Abdul Hafeez, Partner

Discover a better way of doing business

As a busy pharmacist, organising your finances and tax planning can be daunting. You need to know your finances are in safe hands - from the routine day-to-day management of your bookkeeping, payroll and accounts to the more complex tax planning issues.

This is where RA Accountants steps in. We understand the challenges you face. For over a decade, we have developed in-depth insight into the workings of independent and multiple community pharmacies - helping reduce the time they need to spend on managing their finances and tax planning.

Enjoy a personal and professional service

We combine utterly professional standards with a personal touch. We take the time to fully understand your business and your objectives before we make our recommendations on how to best organise your finances.

Our service includes:

- Cloud Accounting, bookkeeping and VAT
- Support in buying/selling a pharmacy
- Business plans, support and advice
- Company secretarial
- Payroll Services, including BACS
- Tax advice and services
- Annual and management accounts

Support with acquiring your first pharmacy

Many ambitious pharmacists in the early stages of their careers plan to buy their own pharmacy. We can help you assess the viability of the acquisition and to introduce you to other professional advisors as required. And once the purchase has gone through, we can help you with the efficient running of the financial aspects of your pharmacy, such as preparing your accounts, VAT and payroll. And as we use cloud accounting software, you can have real-time access to your financial information at your finger tips.

Helping you grow

Having bought your first pharmacy and established a successful business, many pharmacy owners would like to expand and acquire additional locations. We can help you with the acquisition of further pharmacy sites and support you with the integration of these businesses into your existing financial systems.

Tax efficient from the outset

The structure of your business in the context of your personal circumstances and long-term goals can be key to tax efficiency, so please do seek advice before setting up. It will also be important to revisit your tax plan over the years as you acquire additional sites. We also provide advice on inheritance tax and trusts. Our tax experts can provide you with possible options and the best route forward.

Complimentary Initial meeting

We would be delighted to arrange an initial consultation, at no obligation, to see if we can help you with your accounting and tax planning needs.

Contact us on **020 3301 7474**

or email info@raaccountants.com to arrange your complimentary meeting.

Real-time access to your financial information

We use the latest Xero cloud accounting software. So you will have your real-time financial information at your fingertips
