'We get to know our clients and their needs, so we can offer personalised and tailored advice that helps them to achieve their goals'
Riz Akhtar, Partner

'If you are planning to acquire your first practice, have ambitious growth plans or would like to restructure your business with a view to sell, we can help.'
Abdul Hafeez, Partner

Discover a better way of doing business

When running a busy veterinary practice, organising your finances and tax planning can be daunting. You need to know your finances are in safe hands - from the routine day-to-day management of your bookkeeping, payroll and accounts to the more complex tax planning issues.

This is where RA Accountants steps in. We understand the challenges you face. We work with a large number of owner-managed organisations - helping reduce the time they need to spend on managing their finances and tax planning.

Enjoy a personal and professional service

We combine utterly professional standards with a personal touch. We take the time, to fully understand your business and your objectives before we make our recommendations on how to best organise your finances.

Support with start-up

If you are ambitious and looking to set-up your first practice, we are here to help. We can help you assess the viability of acquiring your first site and introduce you to other professional advisors as required. Once the purchase has gone through, we can help you with the efficient running of the financial aspects of your business, such as preparing your accounts, VAT and payroll.

Tax efficient from the outset

The structure of your business in the context of your personal circumstances and long-term goals can be key to tax efficiency, so is always worth seeking professional advice before setting up. It will also be important to revisit your tax plan over the years as you acquire additional sites.

Helping you grow

Having established a successful business, many practice owners would like to expand and acquire further sites. We can help you with the acquisition of further sites and support you with the integration of these businesses into your existing financial systems.

Succession planning

After successfully running your business, you might start considering your eventual exit strategy. Planning ahead offers key advantages, and we can assist with guidance on inheritance tax and trusts. Our tax experts will help you explore various options, giving you the information you need to choose the best path for you.

'I would highly recommend RA Accountants LLP. I run a small independent veterinary surgery, and RA Accountants have helped me from the planning stages to financial forecasting.

They are patient, taking the time to explain every detail and answer all our questions with clarity. Their dedication to providing personalized support and ensuring our accounting needs are met has been invaluable.

I highly recommend them to anyone looking for reliable and professional service!

Wojciech Woszczyński
 Blue Bell Veterinary Surgery
